

Choice Footwear

IF YOU will take note of the fact you will see that a great majority of the well dressed women you meet are clad in OUR FOOTWEAR. We purchase to please women of the exacting taste, and the SHOE NEEDS of Good Dressers are studied and supplied.

Our exclusive SHOES have gained and retained for us the reputation of being the PLACE for WOMEN'S SHOES.

Every model for this season is strikingly handsome, and all new effects—all the recent productions of the best Shoe-makers of America are here.

Our expert service in fitting insures every women that comes to us a shoe of just the right size and width

The Osburn Shoe Co.

WEST VIRGINIANS MAKING PROTESTS

Against the Intention of the Democratic Party to Ruin State's Industries.

(SPECIAL TO THE TELEGRAM)
WASHINGTON, D. C., April 16—A howl is going up from West Virginia over the reductions in the tariff on products of the state made in the Underwood bill now before the Democratic caucus with the stamp of the president's approval on it. The senators and congressmen from West Virginia have not yet heard from the wool growers, the steel and iron manufacturers, the glass and pottery interests or the lumber men in regard to the reductions made in the bill on their products, but they have begun to hear from some of the affected interests. The com-

plaints which have been made so far are as nothing compared to the protests which will be made against the items above mentioned. The Underwood bill slashes the duties on most of the leading products of the state and can not fail to create a storm of protest from the men whose business is affected by the lowering of duties. Already the coal men have arrived here to voice their protest against the placing of West Virginia's principal product upon a free list. The coal business has not been prosperous in West Virginia for some time at best, and coal producers believe that to remove the duty entirely as is proposed in the Underwood bill would mean a period of even less prosperity in their business than has yet been felt. C. C. Beury and J. H. Caperton representing the New River fields and J. S. Collins, representing the Pocahontas fields, were here yesterday. Accompanying them were L. C. Anderson and J. F. Strother, of Welch. Their visit is to see what can be done in the way of retaining some duty on the chief product of the state. Other coal operators are expected to be here later on the same mission. W. P. Stine, representing the Tanners and Dyers Extract Company, with a large manufacturing plant at Charleston, is here to protest against the placing of his products on the free list, whereas a reasonable duty has heretofore been placed on them. He says that placing his products on the free list will injure his business greatly. The Electro Metallurgical Company, with a large manufacturing plant at Kanawha Falls, has sent Mr. Morrison here to protest against a cut of sixty per cent in the duty on the product of his plant. This com-

pany is a large one, with costly plant and machinery and employs many men. The claim is made that its business would be greatly affected if the tariff bill goes through. Representatives of other interests are expected here to enter their protest against the bill.

Benefited Many Who Had Tuberculosis

Those who suffer from Consumption are benefited with night sweats, fever, loss of strength and little or no appetite. Fresh air, good food, and the proper care of the body are essential to a recovery, but in many cases something else is needed. Eckman's Alternative is a healthy tonic which has been most successful in stopping night sweats, reducing fever and promoting appetite. Many who have used it, declare it saved their lives. Investigate what it did in this case.

One hundred and four years I was troubled with cough, which gradually became worse. I had night sweats and pains in my chest. I was losing my appetite and had become so thin and weak I could not attend to my household duties. A physician pronounced my case Consumption. Not being satisfied, I was examined by the physicians of the Polytechnic Hospital. They also pronounced the disease Consumption, which was proven later by an examination of sputum, as Tuberculosis. I had been found to be a Consumptive. Hospital. My nephew would not allow me to go until I had tried Eckman's Alternative. Before I had taken the medicine three weeks I had marked relief, night sweats ceased, pain in the breast relieved, appetite began to return and my fever left me and I commenced getting well. My health became normal. I am in excellent health now and have been completely cured for ten years. I strongly recommend it.

Care Ed. Green, 1722 S. 17th St., Phila., Pa. Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upholding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet telling of recovery and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists.

corn is a large one, with costly plant and machinery and employs many men. The claim is made that its business would be greatly affected if the tariff bill goes through.

Representatives of other interests are expected here to enter their protest against the bill.

REPORT

By Local Church for the Year Ended to the Grafton Presbytery.

Represented the First Presbyterian church here at the spring meeting of the Grafton Presbytery at Fairmont. Dr. H. T. McClelland, pastor of the church, and Frank Wilson, commissioner.

It is interesting to note the statistical report for the year from the local church to the presbytery as follows:

Elders 7, on profession 37, certificate 25, dismissed 13, deceased 1, net total 329, adults baptized 91, infants baptized 12, Sabbath school 204, contributions: Home missions \$280, foreign missions \$329, education \$36, Sunday school work \$65, church erection \$30, relief and sustentation \$41, freedmen \$49, colleges \$30, temperance \$300, general assembly \$30.00, congressional, \$3.63, miscellaneous \$53, American Bible Society \$4, total contributions \$10,292.00.

SUTHERLAND AWAY

But There is Nothing for Him to Do But Wait for Finish of Caucus.

(SPECIAL TO THE TELEGRAM)
WASHINGTON, D. C., April 16—Congressman Sutherland accompanied his wife and daughter to Atlantic City a few days ago and will remain (in the middle or last of this week. The House is doing nothing but wait for the result of the Democratic caucus and he is not missing any of his congressional duties by being away. His secretary, J. B. Nickerson, is running his office for him while he is absent.

Congressman A.V. expects to leave in a few days for Charleston to be there on Saturday when the contempt cases in connection with the bribery investigation by the legislature will be up in the supreme court. He has been employed to represent one or more of the persons charged with contempt for refusing to testify before the investigating committee.

TO CELEBRATE.

MORGANTOWN, April 16.—The twenty-fifth anniversary of the founding of Athens lodge No. 36 of the Knights of Pythias will be celebrated Thursday evening at the Swisher theater followed by a banquet at the lodge hall. Members from many surrounding towns and cities will attend.

COMPANY BANKRUPT.

MORGANTOWN, April 16.—Bankruptcy proceedings have been instituted by creditors against the Shriver Lumber and Manufacturing Company, of Star City, and the case has been placed in the hands of Referee Butcher at Fairmont.

Can't Get Away From It

Is it possible to nourish, strengthen and Rebuild the Brain by Food?

Every man who thinks uses up part of the brain each day. Why doesn't it all disappear and leave an empty skull in say a month of brain work? Because the man rebuilds each day.

If he builds a little less than he destroys, brain fog and nervous prostration result sure. If he builds back a little more each day, the brain grows stronger and more capable. That also is sure. Where does man get the material to rebuild his brain? Is it from air, sky or the ice of the Arctic sea? When you come to think about it, the rebuilding material must be in the food and drink.

That also is sure. Are the brain rebuilding materials found in all food? In a good variety but not in suitable proportion in all.

To illustrate: We know bones are made largely of lime and magnesia taken from food; therefore to make healthy bone structure we must have food containing these things. We would hardly feed only sugar and fat to make healthy bone structure in a growing child.

If we desired to keep brain strong and healthy we would use food known to contain the things Nature uses for the purpose.

True, Nature provides these elements in a variety of edible things. We submit the following facts for those who care to know something definite on the subject:

Analysis of brain by an unquestionable authority, Geoghegan, shows of Mineral Salts, Phosphoric Acid and Potash combined (Phosphate of Potash) 2.91 per cent of the total, 5.33 of all mineral salts.

This is over one-half.

Beaunis, another authority, shows "Phosphoric Acid combined" and Potash 73.44 per cent from a total of 101.07.

Considerable more than one-half of Phosphate of Potash.

Analysis of Grape-Nuts shows Potassium and Phosphorous (which join and make Phosphate of Potash) is considerable more than one-half of all the mineral salts in the food.

Dr. Geo. W. Carey, an authority on the constituent elements of the body, says: "The gray matter of the brain is controlled entirely by the inorganic cell-salt, Potassium Phosphate (Phosphate of Potash). This salt unites with albumen and by the addition of oxygen creates nerve fluid or the gray matter of the brain. Of course, there is a trace of other salts and other organic matter in nerve fluid, but Potassium Phosphate is the chief factor and has the power within itself to attract, by its own law of affinity, all things needed to manufacture the elixir of life."

Further on he says: "The beginning and end of the matter is to supply the lacking principle, and in molecular form, exactly as Nature furnishes it in vegetable, fruits and grain to supply deficiencies—this is the only law of cure."

The natural conclusion is that if Phosphate of Potash is the needed mineral element in brain and you use food which does not contain it, you have brain fog because its daily loss is not supplied.

On the contrary, if you eat food known to be rich in this element, you place before the life forces that which nature demands for brain-building.

Mind does not work well on a brain that is broken down by lack of nourishment.

A peaceful and evenly poised mind is necessary to good digestion.

Worry, anxiety, fear, hate, etc., etc., directly interfere with or stop the flow of Ptyalin, the digestive juice of the mouth, and also interfere with the flow of the digestive juices of the stomach and pancreas.

Therefore, the mental state of the individual has much to do (more than suspected) with digestion.

Brain is made of Phosphate of Potash as the principal Mineral Salt, added to albumen and water.

ed to albumen and water.

Grape-Nuts contain that element as more than one-half of all its mineral salts. We must remember that nearly 95 per cent of the brain is composed of water and albumen, but the little worker Phosphate of Potash must be present in order to blend the more bulky materials into useable form.

So with Grape-Nuts. The Phosphate of Potash is more than one-half of all the mineral salts, but the total volume of these elements is exceedingly small as compared with the greater bulk of other food elements contained in Grape-Nuts.

We should also remember that this small ingredient should not be put into the food in the form it might come from a chemist, because men cannot produce these elements in as digestible a form as Old Mother Nature, when she puts them in the wheat and barley from which Grape-Nuts is made.

A healthy brain is important, if one would "do things" in this world.

The man who sneers at "Mind" sneers at the best and least understood part of himself. That part which some folks believe links us to the Infinite.

Mind asks for a healthy brain upon which to act, and Nature has defined a way to make a healthy brain and renew it day by day as it is used up from work of the previous day.

Nature's way to rebuild is by the use of food which supplies the things required. Brain rebuilding material is certainly found in a very natural and perfect form in

Grape-Nuts
